THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to Americans as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. (Late Butterfield & Averell's.)

WOULD call the attention of the Public, and his old Friends and Customers in particular, to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked, giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

Brandy, Gin, Rum, Wines, &c.
The following may be found among my stock:—

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and numerous other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"**PLANING MACHINES.**
"I take this method of answering the frequent inquiries, by letter and otherwise, of my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kingley, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and also tried about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purpose contemplated.
"I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and ten per cent for my trouble.
JAMES G. WILSON,
Philadelphia."
May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

OFFICIAL PAPER OF THE CITY.

☞ We have a new carrier in the 5th Ward.—Subscribers who do not receive their papers regularly will oblige us by leaving word at this office.

PRESIDENT'S MESSAGE.

We commenced receiving this document by telegraph yesterday afternoon, but its great length, and the time occupied in its transmission over the wires, made it too late for our regular morning edition. We shall give it to our readers in the course of the day, in an extra for that purpose, our publication of tomorrow morning. We are as yet without any intelligence as to the preliminary organization of Congress, or the choice of officers in the House.

How Democracy takes care of the People?

We have seen frequent indications in Eastern papers of an intention on the part of the adherents of Secretary Walker and lovers of his British [illegible] to make an effort to do away with every [illegible] of protection to American interests, but [illegible], we have not seen a second from any of the party presses in this State. To the Kenosha Democrat belongs the distinguished honor of leading off [illegible]. What think our farmers of the [illegible]?

"Down with the Tariff!" will soon be the cry of the [illegible] of the American Union, and [illegible] with all the customs [illegible] to America [illegible]. The [illegible] half free [illegible] independence [illegible] to make it free indeed!

[illegible] "Down with the Tariff!" [illegible] nearly destroyed by [illegible] policy, and Wisconsin [illegible] their wheat and flour for a [illegible]. They are already down to a price [illegible] for seed—but "down with them still further!" is the cry. What are the [illegible] good for except to vote for pure democracy, and to consume foreign manufactures? "Down with all Tariff!" say the democracy. The country is but half starved: it was only sent out $40,000,000 in specie this year to pay its balances to England. It is only some $200,000,000 in debt to foreign countries. It is but half conquered, shall returned to the colonial State.—Speed the time, ye leaders of the people loving "democracy," hypocritical "democracy," when Kossuth's candidate shall be President of the United States when the Americans "shall not manufacture so much as a hob-nail"—when none of the root of all evil shall remain in the country to tempt us, while the Bank of England shall boast its overflowing coffers—and when everywhere, throughout this broad land, farmers shall pour in the products of their hard toil, and thank their lucky stars and the "democracy" for 30 cents a bushel for wheat, and other things accordingly.

Meantime, "Old Berks" insists upon it that [illegible] to the rest on entitle her to a protection [illegible].

FOREIGN GIRLS IN SOUTHERN FACTORIES.—For some reason it appears that the service of slaves is not considered as desirable by the managers of some of the Southern manufactories as labor of another description. A Mobile paper says the ship Seine is now daily expected to arrive in that port with forty young women from France to be employed at the Dog river factory.—*Louisville Journal.*

The same reason which has led to this change of base in a Southern Factory, will one of these days, we think, induce a still more general substitution of Free for Slave Labor all over the Southern States. The fact that Slave cannot compete with Free Labor is sufficiently well attested and as public opinion and the force of habit yield to the persuasive suggestion of self-interest, the tenacious hold of the South upon its "peculiar institution" will be gradually loosened. Ere many years shall have passed, Slavery, in some of the Southern States, will become too expensive a luxury to be maintained any longer, and Emancipation, whose progress has been stayed for a while at "Mason and Dixon's line," will resume its beneficent and bloodless victories.

Outagamie Co.—Official.

The Green Bay *Advocate* gives the official returns from Outagamie Co., as follows:

Upham,	314	Farwell,	216
Burns,	300	Hughes,	127
Robinson,	304	Wright,	135

[illegible] STONE."—The Oshkosh *Democrat*, commenting upon the fact that the Watertown *Register* has had up two or three different candidates for the Presidency during the last six months, pays the following tribute of compliment to the *Register* and the *Wisconsin*:

The *Register* came to want. We remember it [illegible] in favor of the Free Soil Platform of [illegible] State Convention. Its editor was [illegible] over the result [illegible], though it had repudiated every thing like Free Soilism. The Milwaukee *Wisconsin* too [illegible] the political facility of supporting all men, all sides and all principles, all the time. The *Register* can never fully dispute the honor with it.

GREAT RAILROAD CONTRACT.—Geo. Law, of New York, in connection with Mr. Seymour of Utica, and others have closed a contract with the Cincinnati and St. Louis Railroad Company, for the entire survey, grading, bridging, superstructure, iron, depots, equipage &c., of their road for the sum of nine millions of dollars. This road is about 330 miles long, and is to be delivered in complete working order in all respects within five years for that sum. Three and a half millions in cash, and the remainder in stocks and bonds.

R. R. MEETINGS IN GRANT CO.—The people of Grant Co. are holding meetings in the several towns, at which they are addressed by Mr. H. E. Block, agent of the Potosi and Dodgeville R. R. Co., and others, on the necessity of subscribing to the stock of the company. At a recent meeting in the town of Pleasant Valley, 32 shares were taken, twelve were taken in the Hurricane settlement. The Potosi *Republican* announces that the necessary stock for the organization of the Co. is already subscribed.

POLYNESIAN PRIMA DONNA!—Late Paris papers announce the arrival from Tahiti, of a young girl, named Omea, daughter of a chief, who possesses a magnificent soprano voice. She received her first education at the French musical school, and rapidly acquired the rudiments of the art of singing. She is sent to Paris to complete her education.

NEW PROPELLERS.—Messrs Crawford & Co. of the Erie and Ontario line, have contracted for four propellers, to be built at Ohio city this winter, to be ready for next April. The new vessels will each be 145 feet long, with 35½ feet breadth of beam and 11 feet depth of hold. The engines to have cylinders of 32 inches diameter inside, 2½ feet stroke, and to drive wheels of 10 feet diameter.

"SIGN OF THE TIMES."—The Louisville *Democrat*, the leading organ of its party in Kentucky, declares in favor of Douglas for President and Hunter of Virginia for Vice President. The Mississippian [illegible] for Buchanan and Jefferson Davis. The New York Barnburners are prepared to take ground for William O. Butler.

FREIGHT AT NEW BUFFALO.—The Chicago papers state that large quantities of freight are accumulating at New Buffalo and that the steamboats plying between New Buffalo and Chicago will be hard pressed to bring it all across the Lake before navigation closes.

CHICAGO & GALENA RAIL ROAD.—This road is now completed as far as Belvidere, and the cars pass to that point from and after to-day.

Progress of the Northwest.

The following figures, giving the population at different dates of the States formed from the old Northwestern Territory, exhibit a rate of growth unparalleled elsewhere in the world save only in California, and from late indications it is doubtful whether a series of figures for 20 years will prove that even the thirst for gold will suffice to keep the Pacific State up to the rules:

	1800	1810	1820
Ohio	45,365	230,760	581,434
Indiana	4,875	24,520	147,178

Iowa	———	30,945	192,122
	1,470,018	2,967,840	4,715,464

THE MISSISSIPPI AND ITS TRIBUTARIES.—A late writer in the St. Louis *Christian Advocate* gives the total length of the Mississippi river and tributaries at 51,000 miles. The aggregate is thus made up:

	Miles
Mississippi and tributaries not given below	[illegible]
Red river and tributaries	3,125
Arkansas	5,540
White	1,650
Ohio	10,730
Missouri	12,370
Illinois	1,150
Wisconsin	675
Heads of the Mississippi	450
	51,000

MASSACHUSETTS ELECTIONS.—The Boston *Traveller* says that according to the full returns, the House will stand 197 Whigs to 202 Coalitionists, a majority of 5. In the Senate, when the vacancies are filled, they will have also a large majority, making 23 on joint ballot. Last year the coalition majority was 47.

☞ California is likely to gain the fractional Representative in Congress. The census returns just received from the far off State show the number of white inhabitants to be 165,000 and the blacks 1,800. This makes the fraction 74,000 over the one Representative allowed, and will probably deprive South Carolina of her anticipated sixth Representative in Congress.

MORE BANK DEMOCRACY.—The Anti-Bank Loco Focos are likely to be left in a woful minority every where in the country. We notice that the Governor of Alabama, in his recent message, recommends the establishment of a State Bank, with a capital of half a million of dollars.

☞ Mr. SHALER, formerly Assistant Alderman of New York, from the 6th Ward, died suddenly on Wednesday, at the Bellevue Hospital. He was in destitute circumstances, and had been failing from pecuniary embarrassments and loss of spirits for some time.

NEW WHIG PAPER.—The Marquette *Mercury* announces that Messrs KINCAID & CORBETT propose starting a Whig paper at Berlin, in that county. The hosts of good Whigs in that section ought to give it a liberal support.

SANDUSKY.—The population of Sandusky is 7901. In November 1850 it was 5434, and the gain since then 2467. The number of buildings constructed or in the course of erection since the 1st of March is one hundred and fifty.

SPEAKER OF THE ASSEMBLY.—The Madison *Democrat* comes out in favor of Col. BURNS, the whig member from Madison, for Speaker of the Assembly.

City Matters.

PROFESSOR KINKEL.—This gentleman addressed a large number of his countrymen at the Military Hall, Monday evening. Subsequently he attended, by invitation, the Ball of Engine Company No. 2, in the Market H[illegible] and was received with the customary ceremon[illegible] Last night he was honored with a public reception by our citizens, Firemen and Military, and addressed a large crowd in the Market House. This afternoon he meets the ladies at the Musical Society Hall, Dieckerman's Block. Professor Kinkel is a gentleman of distinguished appearance and address, and a graceful and persuasive speaker. He has made many friends and found numerous admirers in our city.

HARPER'S MAGAZINE FOR DECEMBER.—The first number of the new volume has appeared promptly at the beginning of the month. The enterprising and liberal proprietors state that they shall expend $5,000 or $10,000 more on this volume than on the preceding one, and intend to keep it at the head of American magazines. The number opens with a history of the American Grinnell expedition with numerous illustrations. Abbott's life of Napoleon, Maurice Tiernay, my Novel, and other interesting articles are continued. Now is the time to subscribe. HOPKINS and other booksellers have their usual supplies.

DEBATE ON THE HIGHER LAW.—The debate before the Young Men's Association, Monday evening, on the "Higher Law," attracted a goodly audience and was conducted with decided ability. The regular disputants were Messrs. J. P. McGregor and A. McArthur; Messrs. PAINE, RICHARDSON, GUNNISON and Mr. NYE also took a hand in. The discussion was maintained, with great spirit, for 2 or 3 hours, and appeared to be greatly relished by the audience.

FIREMEN'S PARTY.—Neptune Co. No. 2 gave their first party in the new Market-house Hall on Monday evening last. It was well-attended, well-managed and greatly enjoyed. Oregon No. 3 to [illegible] their band at a "Picnic Party," Friday evening next, in their new and handsome House on the Water Power. They intend to have a "house-warming," and there will be plenty to help.

CLASSES IN DANCING.—It will be seen, by reference to our advertising columns, that Prof. BAILEY commences his Dancing Classes for the winter on Saturday next, at Gardiner's Hall. Mr. BAILEY's merits and success as a Teacher, are so well appreciated in our city that it is quite unnecessary to commend him to public patronage.

CASUALTY.—We regret to learn that a German named Hook recently proprietor of Mozart's Hall, was severely injured last night, by the premature discharge of the Cannon used in firing a salute in honor of Professor KINKEL. His arm was blown off and one of his eyes destroyed.

YOUNG MEN'S ASSOCIATION.—The annual election for officers of the Young Men's Association will be held at their rooms in Martin's Block this afternoon and evening. Polls open from 2 till 5 and from 7 till 9 P. M. Members in arrears must "pay up" before they can vote.

BOARD OF SCHOOL COMMISSIONERS.—An adjourned meeting of the Board of School Commissioners will be held at the office of HAVEN POWERS, in the 4th Ward, at 7 o'clock *this* (Wednesday) evening.

DISASTERS ON THE OHIO.—The Portsmouth Clipper of the 25th ult., gives a list of coal boats and lives lost by the late storm on the Ohio River.—the boats number 38, and the lives 13, as far as ascertained.

NEW YORK, Nov. 28—2 P. M.

Thanksgiving day was never more generally observed in this city than yesterday. All the stores in the principal thoroughfares were closed, and the streets had the appearance of Sunday. The churches were all open for public worship and generally well attended, while the places of amusement were thoroughly crammed.

It is said that the Post Master General in his forthcoming report, will recommend to Congress an additional number of steamers for mail service between this city and Liverpool.

The steamer *El Dorado* has been raised and will sail for Chagres tomorrow.

Gen. Cass reached this city yesterday, on his way to Washington.

Mr. CLAY, Gen. HOUSTON, Gen. FOOTE, and a host of other prominent men are already at their posts, prepared for the campaign which will commence next Monday.

Foreign Items.

THE PROPOSED EXHIBITION AT NEW YORK.—The proposal for holding an industrial and fine arts exhibition at New York, in the Spring of next year, to which we have previously referred, appears likely to realize the best expectations of its projectors. Although no steps have yet been taken for ascertaining the number of persons in the United States who may wish to avail themselves of the opportunity of displaying the varied products of their industry, upwards of one thousand applications for space have already been received by the agents in this country, mainly from British and Foreign exhibitors in the late Great Exhibition.

We are informed that among the intended exhibitors are his Royal Highness Prince Albert, who has signified his intention of forwarding some of his farm produce, and the Duke of Devonshire, who contemplates sending various articles from his extensive collection of works of art. Baron Marochetti has engaged to execute an equestrian statue of General Washington, Mr. Carew a colossal statue of Daniel Webster, M. Monti is engaged in the production of one of his veiled figures, and Mr. Manning has consented to send his Portrait [illegible], a statue of her Majesty and Prince Albert, and several other articles of sculpture. The building in which the exhibition is to be held will it is stated, cover a space of seven acres, and Sir Joseph Paxton is at present engaged in the preparation of a design which he intends to submit to the promoters of the undertaking. The first of February is the last day for receiving applications for space, and the exhibition is expected to open on the 15th April. Mr. Riddle, the American commissioner, has returned to New York, where the experience he has obtained in the management of affairs connected with the Great Exhibition will no doubt, be brought to bear in making the necessary arrangements for the proposed transatlantic exhibition.

THE SLAVE TRADE.—The Sharpshooter, iron [illegible], has arrived at Portsmouth from the Brazil station. She has been very successful in capturing slavers, having taken as many as nine during her service on the coast, viz.: one brigantine, with slave equipments, off Rio, by cruising; one barquentine, equipped for slave trade, off Rio, by cruising; one two topsail schooner, equipped for slave trade, out of Mocabe, by information; one topsail schooner, fully equipped, off Campos, by cruising (she was heavily manned, had been chased four days previously, by the Sharpshooter, and had then a cargo of slaves on board); one cutter off Maguinos, having 74 slaves (26 had died on the passage over,) taken by cruising; one brig, fully equipped, off St. Paul's Bahia, taken by cruising; one schooner, empty, off Rio, by information, (this was the Valante); one brig, off Rio, 102 slaves on board, taken by cruising, on information; one schooner, taken out of Tigers river by four boats and 36 men of the Sharpshooter, and one boat and six men of the Locust.

Of 1145 tribes proved to exist in Algeria 1100 have acknowledged the sovereignty of France.

The general effective land force of France consisted, on the 1st of October, of 387,519 men and 82,906 horses.

It is said that France and England have presented an explicit note to the Tuscan Government, protesting against the absorption of Tuscany by Austria.

The East India Company have forwarded to Manchester, for sale, a further consignment of 96 bales of cotton, per the Countess of Zetland, from Cochin China.

The Cape Town Mail announces the arrival at the Colony of Mrs. Pfeiffer, the lady who has travelled round the world. She intended, it is said, to set out on a tour in the interior.

According to Galignani, the Emperor of Russia has just ordered 6000 carriages to be built for the different railways in his empire, in order to facilitate the conveyance of troops.

Fresh inundations are reported from all parts of Austria. The Danube, the Traun, the Enns, the Save, the Adria, have all overflowed their banks, and done great damage. Every heavy rain is followed by disastrous inundations in the valleys through which the rivers of Austria flow.

The King of Hanover, according to every account, is fast approaching his end. His great age itself forbids any hope that his life will be much prolonged. His grand-children have been summoned to his bedside, and the Duke of Cambridge is now with him, having been sent for from England.

The Nenagh board of guardians are entertaining a project for sending 100 of the paupers to America.

Ten Irish families, 54 persons in all, from the Queen's, Kilkenny, and Kildare counties, have sold their property, realizing thereby £3000, and are about to emigrate to Australia.

In the Encumbered Estates Court yesterday week, there were no less than ten properties put up for sale before an extremely crowded court, being the greatest number ever submitted to competition in a single day. The total amount realised was £37,675.

Democracy Won't go It.

Lord Dudley Stuart's nomination of our Confederate Man is not responded to, thus far, on this side of the water. The unterrified democracy are especially offish. One of their City organs is by no means prepared to grind music to Mr Walker's score. The editor questions whether the time will ever arrive when the United States will be disposed to act in unison with England in establishing liberty in Europe. Indeed he gives it as his most decided opinion that the thing cannot be, as her Britannic Majesty's subjects and the sovereigns on this "patch of the earth's surface" hold nothing in common to begin to harmonize upon. And it is, or might be, if it is not, insinuated, that in the matter of restoring or establishing liberty in Europe, something of a beginning would have to be made too near home, to end in the duty altogether pleasant to our transatlantic ally. This is worth thinking of, at least.

But with all Mr. Walker's ambition, and he is certainly a very "peaky little man," we imagine his Democratic rivals at home need not exercise themselves violently in regard to his current movement. He is not after the Presidency, this hunt. All Wall-street know what he is after. He is getting up a crusade against the aborigines of Southern Illinois, and is in London to borrow the sinews of war. In other words, he and Robert Rantoul, Jr., a progressive man of Massachusetts, propose to borrow sixteen millions to try a small experiment at driving off the mosquitoes from the region round about the confluence of the Ohio and Mississippi by the whistle of the locomotive? The rich products of the North are to be directed from Chicago and the Lakes, to a straighter chute via Cairo, and through Tennessee, Mississippi, and Alabama to Mobile, there to take tide-water in search of a market? The Illinois Central is to be seven hundred miles long. It is lined with all sorts of soil, rich, black, sandy, and alluvial, the value of which will be inestimable, provided Mr. Walker's namesake of Wisconsin don't carry through his "vote yourself a farm" principle. That would be awkward, but as the land is to be swapped for rails, the London folks need not take on about this littleness. Besides, Mr. Walker promises to throw in a small fight or so on Her Majesty's behalf, if need be. That Russian campaign may turn up, and then look out for an army of "suckers" more terrible than the serried ranks of Davoust and Ney, Murat and Poniatowski, and ten-fold more impervious to Arctic and Moscow inhospitality!

Mr. Walker may be relied on in his promises, or he may not. He is singularly felicitous, at all events, in measuring the vast merchant marine likely to be required in his schemes of grandeur. In 1846-7, he promised that for the blessed year of the Christian era, 1848, the United States would require, under the benign influence of Free Trade, tonnage for domestic produce to the value of $222,898,350; in 1849, $229,959,993, and in 1850, $138,115,057! The subsequent official statements show that the actual exports did not quite come up, the figures being for 1848, $132,904,121, for 1849, $132,666,955, and for 1850, $131,900,265. Of course part of the merchant marine is not so busy, but it will be needed, nevertheless, in the allied fight aforesaid. In that day, quoth Mr. W., "the vessels now built and those which would be created by such an occasion, would not contain the millions who would rush to the rescue of liberty at the call of their forefathers!"—*New York Times.*

MORE FRAUDS UPON EMIGRANTS.—A poor German emigrant, with his family, arrived here on foot by the Manitowoc road, a few days since, completely fleeced of all his funds, and having nothing but $40, in counterfeit bills, not signed, upon the Berrien County Bank, Mich. When in New York, he fell in with an "emigrant agent," named *F. A. Loeber*, 74 Greenwich-st., who told him that his money, which was German gold coin, would not pass in Green Bay, and induced him to exchange a part of it for this fraudulent stuff. The poor man was then sent over a circuitous route, and ere he reached the end of his journey was exhausted of funds and obliged to come over the latter part of the route on foot.—*Green Bay Advocate.*

A COOL PROCEEDING.—A gentleman going down to New York, in a North river boat, last week, missed his tooth-brush, and on looking around, was astonished to perceive a country gawk applying it vigorously to his tobacco stained ivories.

"My dear friend, you have made a very great mistake in using my tooth-brush," said the gentleman.

"Your what? your brush? You don't mean to say that this here's your tooth-brush?"

"I do, sir, but it is of no consequence now, you are welcome to the brush."

The fellow looked puzzled at first, as if he suspected a trick, but at length he exclaimed—

"Here yeou, take your confounded thingumbob! But I should like to know what in thunder has become of the *tooth-brush that belongs to the boat.*"

☞ Navigation is closed, the ground is frozen, snow lies two or three inches deep, it is now (Thursday afternoon) raining and snowing both at once, and the prospect for a glorious winter is good.—Oshkosh Democrat 28 ult.

FATAL AFFRAY IN BUFFALO.—Mr. Lucius Wentworth, a quiet inoffensive citizen residing on Ninth street, was sitting in Coan's Saloon, near the American Hotel, smoking a cigar, on Sunday evening last, when Martin Weirthuan entered with a party intoxicated. Weishuhn without provocation crowded Wentworth's hat down upon his head over his eyes, which the latter told him not to do again, when Weishuhn, who is a powerful man, knocked him down and stamped upon him, until his savage ferocity was satisfied, or he was prevented by the interference or by standers, leaving Wentworth in a shamefully bruised and nearly helpless condition.

Wentworth was taken home where he lingered until Wednesday morning and died, while Weishuhn and his party were suffered to depart without molestation, and the former, who was mate of the steamer Albany, proceeded with her voyage to Cleveland where he was arrested on Wednesday, and held subject to a requisition from Gov. Hunt. This is the most shamefully brutal affair, so far as we have been able to learn, that ever occurred in our city, and will no doubt be thoroughly investigated and the offenders properly punished.—*Buff. Com.*

By the following from the Cleveland *Herald* of Saturday, it will be seen that the murderer has been arrested and taken back to Buffalo:

Martin Weirthuan, First Mate of the steamboat Albany, was, on Thursday, arrested by officer Gallagher, on the charge of murdering Lucius Wentworth, in Buffalo, on Sunday evening last. The act is said to have been committed in a Saloon, Weirthuan to have been under the influence of liquor.

GALLAGHER acted on a telegraphic dispatch from Officer TYLER, of Buffalo, who is in the city, and leaves to-night with the prisoner.

Mr. Fillmore and Mr. Clay.

The Washington correspondent of the N. Y. Journal of Commerce writes:—

"President Fillmore has, within a few days past, positively stated to friends who had offered their services to promote his views, that he was not, and would not become a candidate for the next Presidency."

Of Mr. Clay the same writer says:—

"He comes here now, with no party views, and not as a leader of any party, and entirely unconnected with any projects, personal or political.—He will look steadily and solely to the interests of the Union, and the maintenance of the Compromise measures, as a final adjustment of sectional controversies."

WISTAR'S BALSAM OF WILD CHERRY imparts new vigor to vital action, and relieves the system by opening the pores of the skin, and promoting the secretion of mucous matter. Its action is sudorific, sedative and expectorant, by opening the pores, allaying irritation, and by rendering the expulsion of mucous matter easy.

Those who take the Balsam will feel immediate relief from the distressing irritation that accompany affections of the respiratory organs. The pores have been closed, the Balsam opens them. The Lungs suffer from irritation, the irritation is soothed; the pulse is violent and feverish, they are softened, and the mucous membrane is relieved of its engorgement with rapidity and ease. THE TAIL OF THE COMET

IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established whenever it has been used.

JOHN DWIGHT & CO'S
SODA SALERATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL

HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st.

FOR THE TOILET.

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville.*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

Troy Fire Insurance Company

TROY, WALWORTH COUNTY, WIS.

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	560
Whole amount of Property insured,	$425,603 00
Whole amount of Cash premium,	5214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,	4843 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one half the regular cash premium in full, without a premium note. Stoves may be added or changed, out buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for two years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 35 cents, and now are collecting 70 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $[illegible] in the treasury, and 68 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilson may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

TAKE NOTICE!
PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.
The advantages of this Patent are, first, the elasticity of its principle, the simplicity and durability of its structure, and what is of greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best but the cheapest Bedstead that can be used!
In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

And when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bed tesds within two years, and that in the eastern cities

ONE HUNDRED THOUSAND

have been made and altered, we tell nothing but the truth, to exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, [illegible]; N. [illegible] House, American House, Capitol House, U. S. Hotel, Buckeye Hotel, Columbus, O.
This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring st., 2 doors west of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.
Persons wishing to have their old beds remodelled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.25.
In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common-sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other state. Its superiority over all others consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."
We feel, too, that for cheapness it does not cost any more than the common wood-screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."
Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.
☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.
Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of 1 ½ Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.
J. B. TRIPP & CO.

HINMANSVILLE, Oswego Co., May, 1848.
S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.
Yours, very respectfully, S. COBURN

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb 1850.
S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAMES RUSSELL.

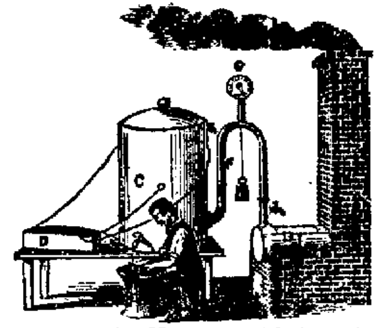
PATENT MEDICINES,



Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For Inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.
Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since, to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.
Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla—such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidentially appeals to the thousand certificates of its wonderful cures and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceeded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical Skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.
Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied in offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 20, 1849.
We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.
(Signed) E. W. SEHON,
E. STEVENSON.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.
From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.
L. P. YANDALL, M. D.
Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.
From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.
Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.
Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.
I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

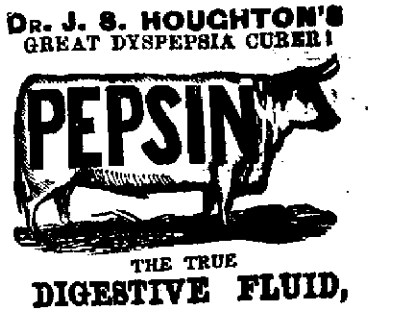
Another Scientific Wonder!
DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.
This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.
☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.
PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."
Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.
Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."
Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."
Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."
Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."
Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.
All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.
The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.
It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.
Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.
Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.
☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.
☞ Sold by all Druggists and Dealers in Medicine.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.
Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.
We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.
Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be.
